CAREER OBJECTIVE

Enthusiastic **recent graduate** with a **strong foundation** in **Frontend programming**, with **expertise** in **Python programming**, **Skilled** in **web development** with **React framework**, and **proficient** in **JavaScript, HTML, and CSS**. **Experienced** in **MySQL,SQL server** and **GitHub** version control systems. **Seeking opportunities to apply AI skills** while exploring **AWS DevOps**. **Strong problem-solving abilities** and **logical thinking**. **Quick learner** and can **adapt** to **new technologies** and **environments.**

CERTIFICATIONS

- **Certificate** in **Mobile app development** from **bharathidasan university** |2022| **Grade A**.
- **Workshop** in **Python programming** from **Flyviv academy** |2024|**Grade A.**
- **Certificate** in **4 days basics in Python Full Stack Development Bootcamp** from **Btree** |2024| **Grade A**.
- **Internship** in **.NET Framework** from **Marz technology**,karaikudi |2024| **Grade A.**
- **Internship in Web development |20/5/2024 – 20/6/2024|Grade A.**

EDUCATION

Sri Raaja Raajan College of Engineering and Technology,Karaikudi	Jul 2020-may 2024
Bachelor Of Computer science and Engineering	CGPA:8.57/10.0

- Attained the **top 2 rank out of 60 students** in class, demonstrating my dedication to academic excellence and commitment to achieving outstanding results.

Sri Ramana Vikas Higher Secondary School,Sivaganga	Mar 2020(Completed)
HSC(Computer Science)	Percentage:79%
St.Joseph Matriculation School,Sivaganga	Mar 2018(Completed)
SSLC	Percentage:91%

PROJECTS

Chatbot in Online bus ticket booking system   **Mar 2023**

- Inaugurated my academic journey with the creation of a **Chatbot in Online bus ticket booking system,** showcasing commitment and initiation into practical knowledge application and Experience a **CHATBOT** in this project for the client/customer interaction services.
- Demonstrated proficiency in **HTML,CSS,Js** programming and **Backend PHP** and also **Database** concepts, handling user inputs and implementing basic ticket booking management in the project.
- Ensuring smooth execution of the code that effectively manages a ticket booking system, calculates costs of the ticket, checking the availability of the bus seats and presents a comprehensive summary.

Creating a personal finance tracker application   **May 2024**

- Tracker Application using **React Native** for the **frontend**, a **RESTful API** built with **Java Spring** for the **backend**, and **MySQL** for **database management**.
- The Personal Finance Tracker Application aims to provide users with a user-friendly interface to manage their finances efficiently to help users track expenses, monitor income, set budgets, and plan for the future.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (JS)	**Web Technologies**: HTML, CSS ,PHP
Web Frameworks: Bootstrap,.NET	**Database**: MySQL,SQL server
Version Control: Github	**Operating Systems:Windows 7,8,10**
CS Fundamentals: Data Structures and Algorithms	**Skills**:MS Word,Excel,Powerpoint,
Cloud computing: AWS Devops	**Libraries&platform:**React.Js,Node.js ,jQuery

AREA OF EXPERTISE

Coding Expert	**Problem Solver**	**Team Player**	**Visionary Devoloper**
Proficient in Python	Innovative approach to challenges	Excellent collaboration skills	Crafting Tomorrow's Solutions Today
